Rick,

Please see the attached NRC Reports. The 8773 phone number doesn't appear to be one of our cell numbers. At least it's not on our phone list. Maybe Jerome McGriff can tell who that number belongs to if it is a EPA cell number. If you need anything else please let us know. Thanks.

Kevin Boyd

Hi Kevin,

I have attached all three NRC reports that deal with the same complaint. Thx.

Lori,

Can you check to see if the numbers in the message below are NRC Report numbers. Thanks.

Subject: Question on National Response Center calls

Hi Mike,

I thought you may be able to point me in the right direction. We received a FOIA request from a citizen in DE that has complaints about illegal dumping in DE. He is asking for information “regarding EPA cases 1297869, 1298294, and 1301768.”

These are not numbers we use for enforcement cases and I have been at a loss to find out what they are. Just yesterday, I found out through a copy of his phone records that he sent me that the citizen made calls to the National Response Center on February 18, 2021. I was wondering if those numbers are assigned by the NRC to the complaint reports. If so, who should I talk to regarding getting copies of any records associated with those reports? Any records for those complaints would be responsive to this FOIA request. On the same day, he had several phone calls with someone who’s cell number is 215-514-8773, which may have been someone in Region 3 based on the 514 exchange. The citizen did not have a name of who we spoke to, but he said he did speak to someone at EPA on February 18th prior to talking with me for the first time in April.

Thanks,

Rick
